

Cima Cove

Prefabricated Simplicity,
Tailor-Made Originality.

cima 

Cima Cove makes the intrigue of cove lighting more accessible than ever. Our ready to install panels are ideal whether constructing a new environment or updating an existing space. There is no substitute for the ease of installation, the pleasing light gradient and the customizable appearance that Cima Cove provides.

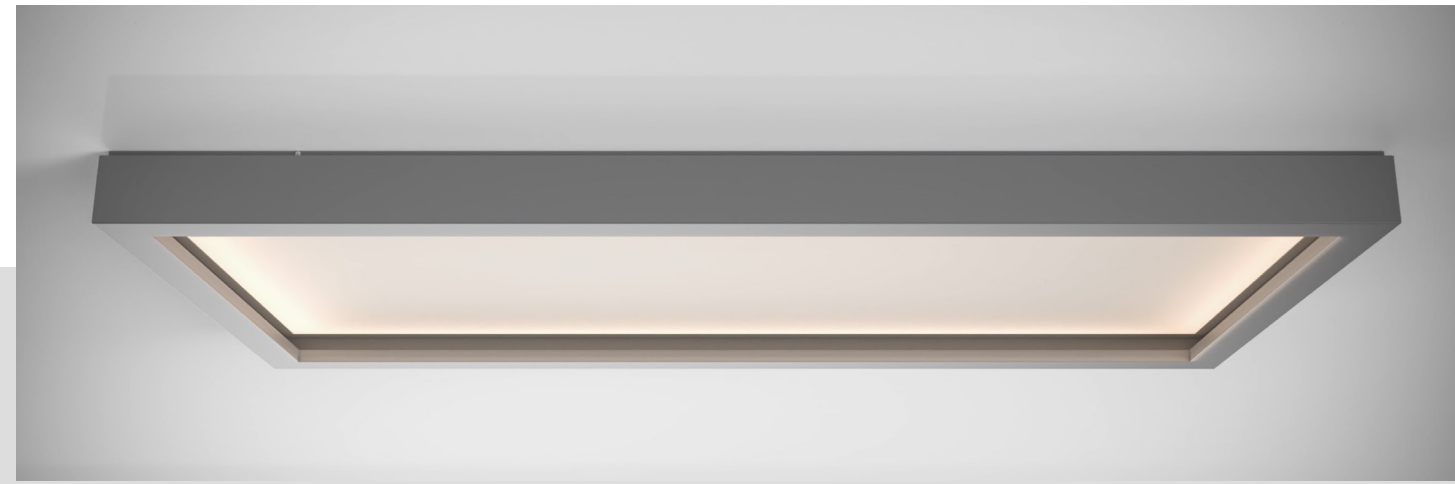

Define it all.

A prefabricated panel will be crafted specifically for you whether you keep it simplistic or express creative freedom.

Elevate dimensionality by incorporating cove panels

Cima Cove creates a sense of depth using indirect light. Below, the section view shows light projecting from the asymmetric optic, illuminating the customized panel and reflecting off to illuminate the area underneath.

Create Personalized Systems

Create an architectural statement with powerful fixture layouts. Array multiple Cima Cove fixtures to accentuate your space.

Introduce prefabricated panels to incorporate cove lighting without large scale renovations. Easily install Cima Cove for a timely retrofit.

Bring New Life to Existing Spaces

Enhanced Placemaking

Guide your guests by adding importance to their destination. Establish spatial hierarchy by using Cima Cove to define your environment.

Customize for Dynamic Fixtures

Strengthen your brand identity by implementing custom graphics. Printed panels within Cima Cove help define your atmosphere as a brand hallmark.
